Subject: 2002 Project Plans - Part 1 of 2

Dear all:
As promised, I am attaching binders containing all of the WSA 2002 project plans. Since the files are large; I've had to break them over 2 e-mails.

The binders are organized by area; the binder contents are in the order they should be for the review. To print quickly, you can select the "Print Binder" option; this will send all sheets in a binder to queue (in order) in one step.

I hope it turns out you don't need these after all, but I'd rather be safe then sorry.

Thanks,
Valerie
